

Over **125 years** Aveng has evolved in **character, capability and reach**

► **Aveng Grinaker-LTA** is a multi-disciplinary construction and engineering group that delivers landmark projects. The company combines African roots and a proud South African heritage with an unwavering commitment to world-class safety and quality.

Our expertise in building, civil engineering, roads, earthworks, concrete, ground engineering, water, mechanical, piping, electrical and instrumentation contracting is delivered through focused business units acting in synergy.

Aveng Grinaker-LTA Building is a customer focussed Business Unit notorious for its solid track record for executing landmark projects in Southern Africa. Whether a 6-star rated green building, a world-class sports stadium, a forensics laboratory, a commercial office block, hospital facilities, or a retail mall our specialist teams deliver quality buildings professionally, efficiently and timeously.

Through continuous improvement, strategic thinking and quality delivery, we ensure our differentiated solutions provide definitive value propositions to the satisfaction of all our customers. Our capabilities also encompass design, engineering, material selection, procurement and construction.
