

How Aveng contributes
to the mining sector

For more information see the Aveng website at www.aveng.co.za

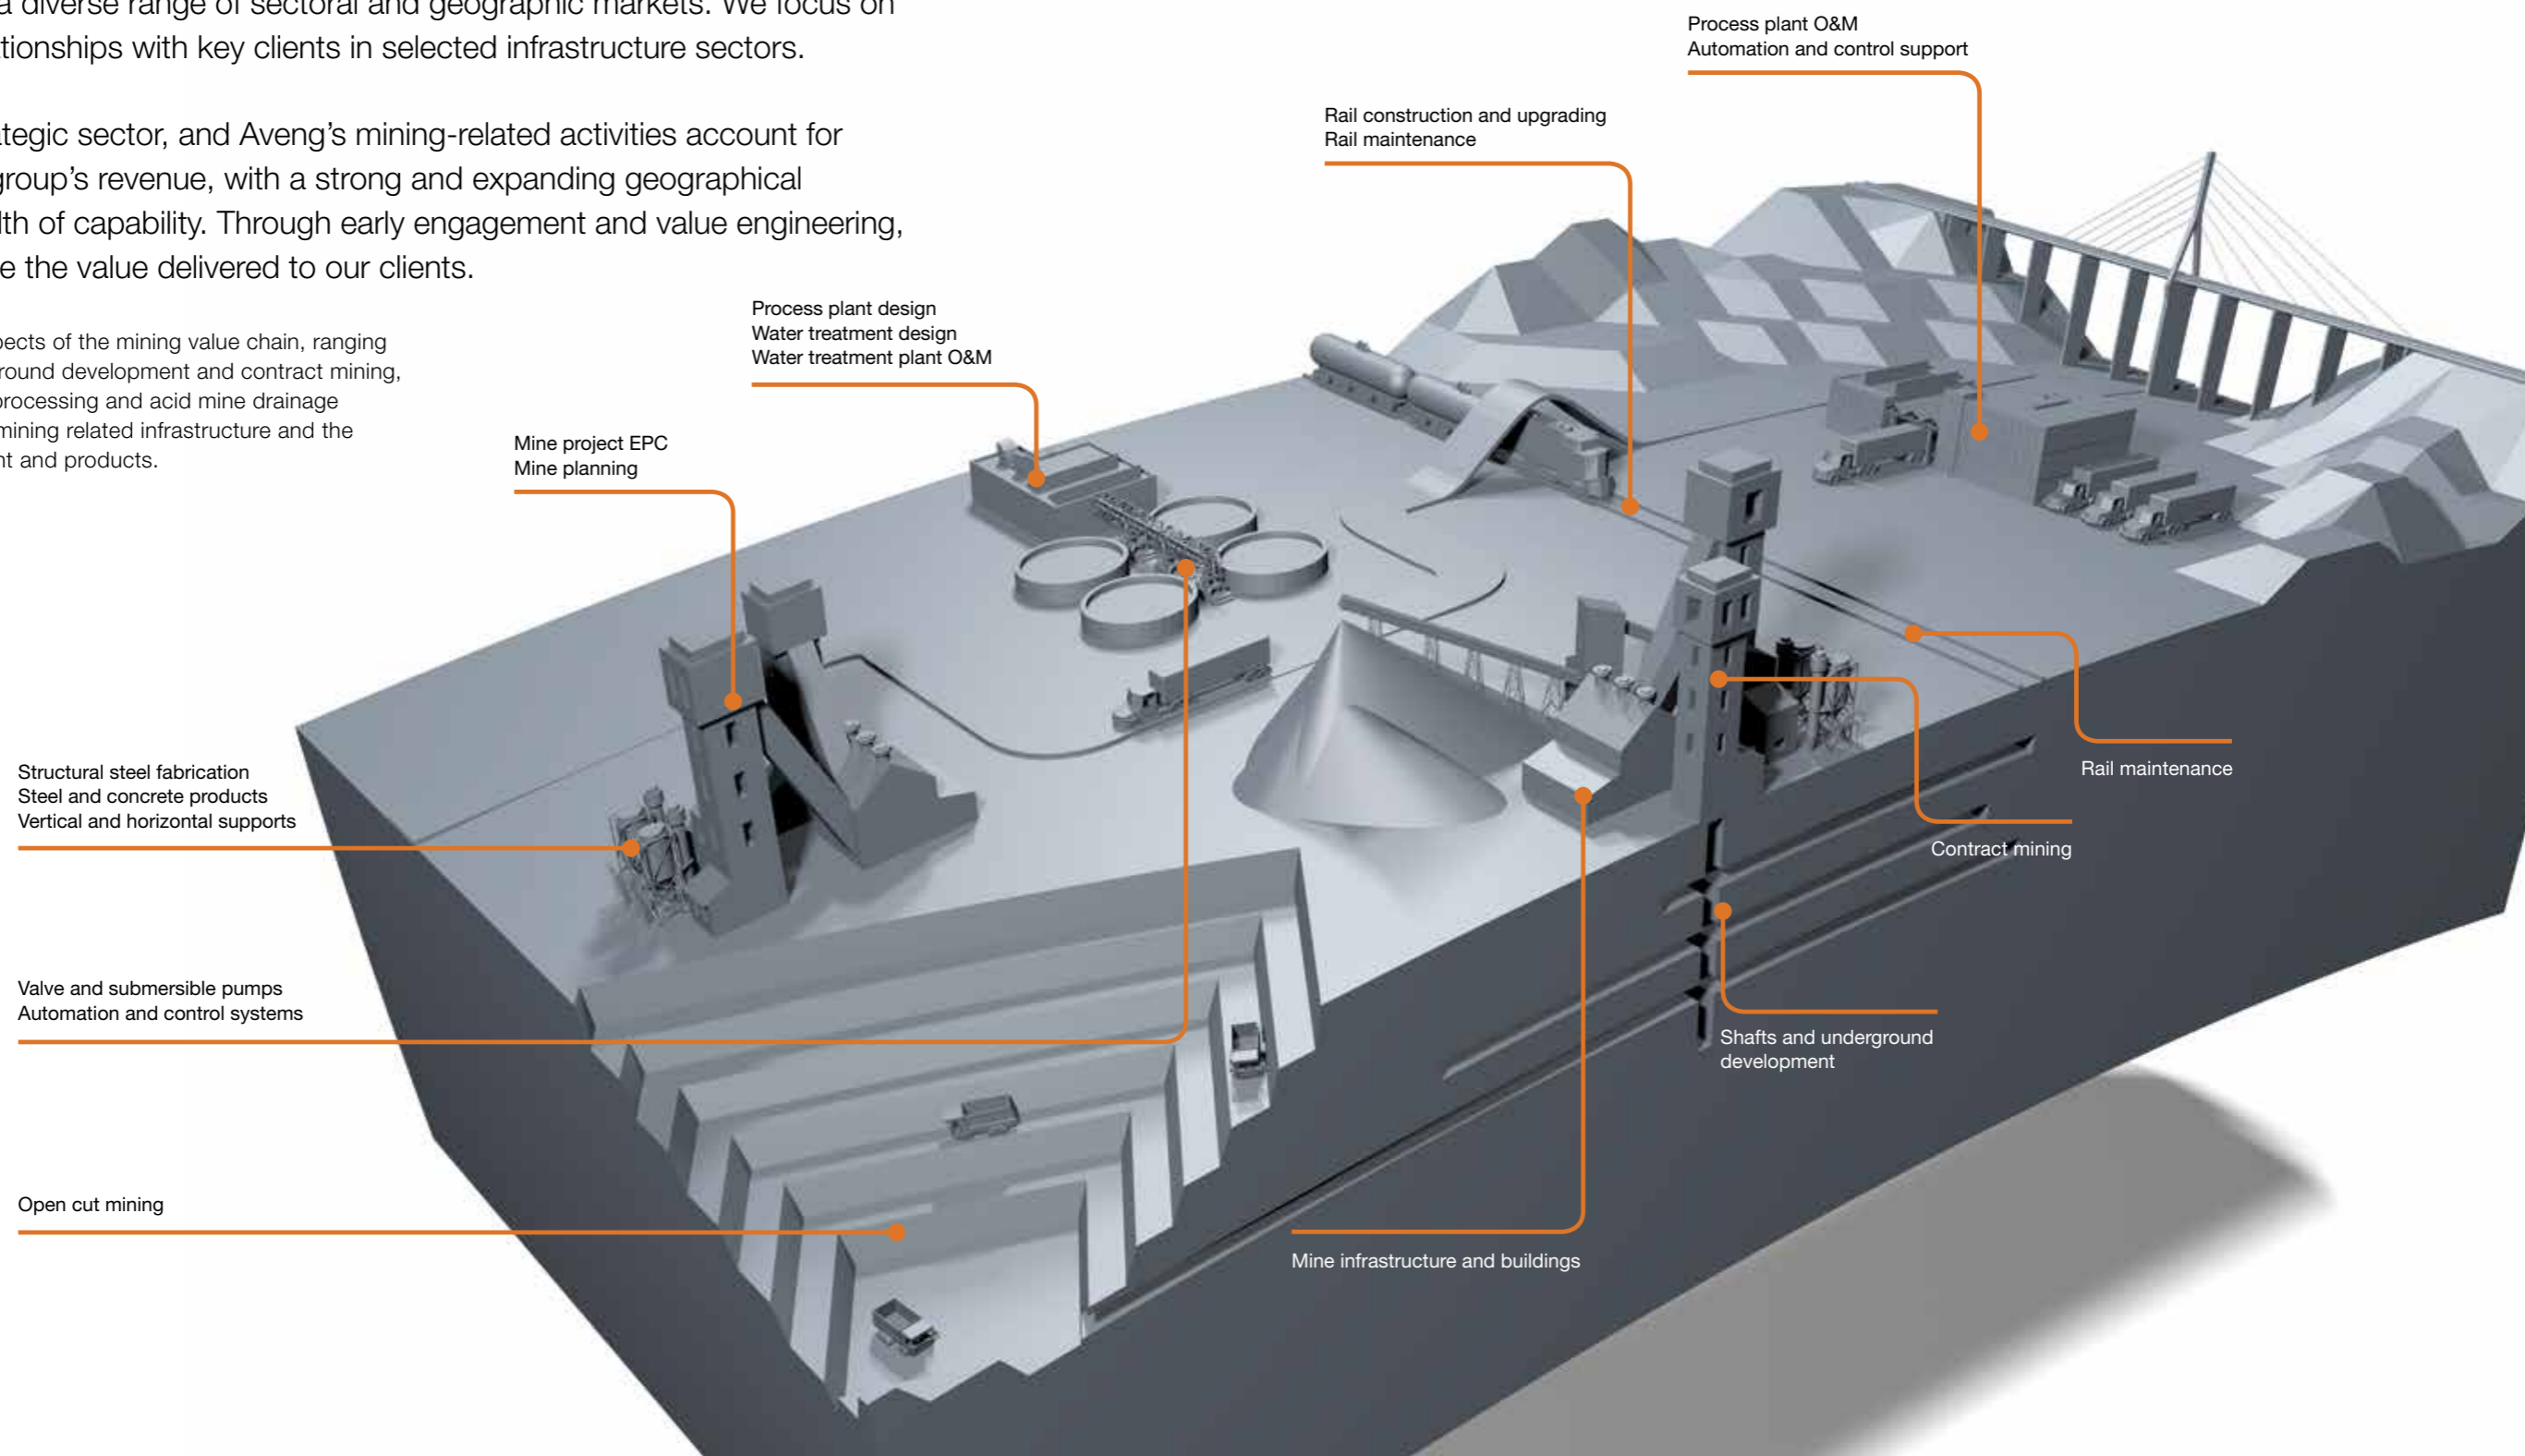

Aveng in mining

Aveng operates in a diverse range of sectoral and geographic markets. We focus on building lasting relationships with key clients in selected infrastructure sectors.

Mining is a key strategic sector, and Aveng's mining-related activities account for about 40% of the group's revenue, with a strong and expanding geographical footprint and breadth of capability. Through early engagement and value engineering, we seek to enhance the value delivered to our clients.

Aveng is involved in all aspects of the mining value chain, ranging from shaft sinking, underground development and contract mining, open cut mining, mineral processing and acid mine drainage plants, to construction of mining related infrastructure and the supply of mining equipment and products.

Strong brands servicing a diversity of sectors

The main Operating Groups that make up Aveng are:

Aveng Grinaker-LTA www.avenggrinaker-lta.co.za

Aveng Grinaker-LTA offers multidisciplinary services across the construction and engineering value chain to its clients in South Africa, Mozambique, Mauritius and other selected markets in the rest of Africa. Services range from building, civil engineering and earthworks, to mechanical and electrical engineering. Aveng Grinaker-LTA also offers a range of water treatment solutions with expertise in design, construction, operations and maintenance of permanent and modular water treatment plants.

McConnell Dowell www.mcconnelldowell.com

Australian-based McConnell Dowell is a major engineering, construction and maintenance contractor experienced in delivering complex projects in the building, infrastructure and resources industry sectors, with expertise in building, rail, civil, electrical, marine, mechanical pipelines, fabrication, tunnelling and underground services. The subsidiary operates in 23 locations throughout Australia, Asia, New Zealand, Pacific Islands and the Middle East.

Aveng Mining www.avengmining.com

Aveng Mining is one of only four deep-level shaft-sinking companies worldwide and is involved in all aspects across the mining value chain, ranging from shaft sinking, underground development and contract mining, open cut mining, mineral processing and acid mine drainage plants, to construction of mining related infrastructure and the supply of mining equipment and products.

Aveng Steel www.avengsteel.co.za

Aveng Steel supplies a wide range of products to the domestic and export markets in the steel construction and automotive industries from its steel yards, processing centres and manufacturing plants.

Aveng Manufacturing www.avengman.com

Aveng Manufacturing manufactures and supplies construction products to the construction sector, services and engineered solutions to mining, water, oil and gas and construction clients, and rail construction and maintenance services to the transport sector.

Aveng Capital Partners <http://www.aveng.co.za/operations/aveng-capital-partners>

Aveng Capital Partners is the investment and structured financing arm of Aveng. The company focuses on originating, developing, structuring and investing in general infrastructure, power and real estate projects in South Africa and selective economies in Sub-Saharan Africa.
